Vision Zero Forum

@NollaTapaturmaa

Vision Zero Forum

Finnish national network for workplaces sharing a genuine desire for continuous improvement of occupational health and safety.

The main principle of the Forum is to share successful practices and to learn from each other.

What is it?

- A national network of workplaces that share a common vision of becoming leaders in occupational safety and are willing to share their experiences for the benefit of other members.
- Meant for all kinds of workplaces that are interested in prioritizing occupational safety and are striving to the forefront of safety.

What is it about

- Promotes the vision zero approach and acts in accordance with it.
- Provides examples of good practices from other workplaces and promotes success stories.
- Motivates and encourages workplaces to strive for a high level of safety on a voluntary basis.
- Provides national and regional events and seminars to support the needs of workplaces.
- Provides materials and tools to promote the vision zero concept.
- Promotes positive communication and visibility for safety.

**TOGETHER
TOWARDS
ZERO**

Commitment of members

We commit ourselves to sharing information on best practices with other workplaces

We will improve our workplace safety in co-operation with our employees and management

Health and safety are an integral part of our workplace's successful business operations

We commit ourselves to annually providing the Zero Accident Forum's project team with information on occupational safety

Zero tolerance
of workplace bullying

Zero no-flow
working days

Zero sickness
absences due to
work

Zero
occupational
diseases

Zero accidents

Zero supervisors and employees
unaware of occupational safety

Current situation

- Over 440 workplaces from all over Finland have joined Vision Zero Forum
- These workplaces employ more than 400 000 people, which equals 17 % of the Finnish working force
- The Forum covers 59 various economic branches – e.g. industry, construction, service, mining, logistics, municipalities
- 550 safety level certifications granted 2005 – 2019
